FILTER CLEANER

Liquid cleaning agent for removal of partially carbonized oils using circulation method

- * Based on a mixture of aliphatic and chlorinated aromatic hydrocarbons, cresols and anionic surface-active agents.
- * Removes partially carbonized oils.
- * Timely cleaning prevents the formation of coke-like adherents.
- * Non-corrosive.

Application

Filter Cleaner is mainly used for the cleaning of permanently fixed oil coolers, oil pre-heaters and metal/ceramic oil filters. These units are regularly contaminated by particles in the oil and partially carbonized oils. Timely cleaning prevents the formation of coke-like adherents which are difficult or impossible to remove.

Directions for use

Filter Cleaner is used undiluted at cleaning temperatures not exceeding 60° C. The cleaning effect is obtained by filling and/or circulating the product. Cleaning will take 8 to 24 hours depending upon the degree of contamination.
